Introduction power BI

PERSONAL PROJECTS

Zomato analysis (data analyst)

The "Zomato Analysis" project aims to comprehensively analyze restaurant data from the popular online food delivery and restaurant discovery platform, Zomato, utilizing a multi-tool approach involving Excel, SQL, Power BI, and Tableau. This integrated approach allows for a more in-depth exploration, cleansing, and visualization of the dataset, providing users with valuable insights and a user-friendly experience.

HR ANALYSIS (POWER BI)

Help an organization to improve employee performance and improve employee retention (reduce attrition) by creating a HR Analysis project
